- Kitchen and dining room addition and renovation to the USC campus sorority house.
- Working on a tight schedule, work commenced at the end of the Spring semester in May and completed over the summer before the Fall semester in August.
- The construction was coordinated to minimize disruption to existing operations.
- A commercial kitchen was added to the house which required early coordination with the equipment provider on ordering long lead items and roughing for installation.
- The scope also included an addition to the dining area.
