COMPLETION DATE

April 2011 (*Specialty Clinic*)
January 2012 (*Chiller*)

SIZE

10,000 SF upfit (*Specialty Clinic*)
N/A (*Chiller*)

Multi-project contract for the Veterans Administration Hospital:

■ Specialty Clinic:

- 10,000 SF upfit comprised of demolishing and rebuilding new exam rooms, procedure rooms, specialty ophthalmological equipment, reception and waiting areas.
- Renovations included above-ceiling work to the HVAC, lighting, and electrical systems and integrating these into the existing hospital system.
- Extensive infection control measures, quality control programs and safety procedures were implemented to accommodate a busy hospital campus.
- Careful coordination to minimize disruptions to existing hospital operations.

■ Chiller Renovation:

- Demolition of existing piping and replacement of the chiller pumps to include new controls, a new mezzanine and assorted mechanical equipment.
- Team's work was coordinated with the VA to shut down existing equipment and activate new equipment in order to create a seamless transition and continuous operation.
