Applegate and Company  
(843) 577-3900

**ARCHITECT**

Scott Garvin  
Garvin Design Group  
(803) 212-1032

**COMPLETION DATE**

July 2012

**SIZE**

15,000 SF

- New data center and support space utilizing tilt concrete panel construction with a structural steel roof system.
- The facility, which is expandable to 30,000 SF, contains a state of the art server room for data storage, client work areas, and an office area with meeting and break areas.
- The aesthetic for this space blends the cutting edge look one would expect for this type of facility with the commercial aesthetic of the surrounding commerce park.
- Mashburn provided extensive preconstruction services in this design/build collaboration; our team worked diligently to deliver the project within a fast track schedule.
