(713) 961-4488

COMPLETION DATE

November 2010

SIZE

200,000 SF

- Design-build delivery
- Warehouse addition
- Building is comprised of structural steel, load bearing tilt panel walls with dock doors and staging area.
- Project was completed under very aggressive scheduling; Mashburn was responsible for managing the project team during pre-construction.
- Construction integrated with the operations and traffic flow of the existing 460,000 SF facility.
