**COMPLETION DATE**

January 2011

**SIZE**

14,000 SF upfit

- Upfit of the 18th Floor of the Tower at Gervais in Columbia.
- Construction scope included metal stud framing, floor and wall finishes, and cabinetry/millwork throughout the space.
- Conference rooms are glass walled, and the majority of the space is an open floor plan for a collaborative work environment.
- The construction was coordinated to minimize disruption to existing tenants in the building.
