133,000 SF

- This design-build project includes a tilt-panel warehouse and corporate office facility for ATS Logistics, a warehousing, transportation and freight management service company.
- The warehouse houses a racking system with 25 overhead doors along the main corridor to provide access for trucks.
- The office space includes 8,500 SF for ATS and 7,500 SF for US Customs. Office areas include private offices, large working areas, break room, conference room, meeting room, and a separate break room and restroom for the warehouse workers.
