Myrtle Beach, SC

OWNER

Alice Canterbury
Associated Medical Realty,
LLC
(843) 692-5000

ARCHITECT

David Graham
Graham Group Architects
(843) 237-3485

COMPLETION DATE

August 2013

SIZE

32,885 SF

- 18,000 SF addition consisting of new exam rooms, work space, lead lined PET CT and CT areas, a 797 clean room, as well as associated patient support and prep rooms.
- Renovation of the entire existing 14,885 SF facility included new mechanical and fire protection as well as new labs, new chemotherapy treatment areas and office upfits.
- The existing roof was also removed and replaced.
- Mashburn partnered with the owner, architect, and the design team to provide preconstruction consulting and input on cost saving ideas.
- Working to keep the Center in operation during construction, Mashburn's team put a plan in place to address construction challenges – a site logistics plan and temporary walls and infection barriers aided in minimizing disruption.
